

Call for Posters

Poster Chair

Jinwei Liu, Florida A&M University (jinwei.liu@famuc.edu)

Scope and motivation:

The 2024 IEEE World Forum on Public Safety Technology (WF-PST) welcomes extended abstracts for presentation as Posters. We seek provocative ideas that challenge existing approaches to Public Safety technologies and applications. We invite contributions from researchers and practitioners from industry and academia.

Submission guidelines:

Posters must be submitted via [EDAS](#). Submitted posters should be written in the English language, with a maximum page limit of 3 printed pages, including all the figures, references and appendices, and not published or under review elsewhere. The 3-page extended abstract describing the Poster will be evaluated on significance, presentation, and interest to the conference attendees. Posters longer than 3 pages will not be reviewed.

Use the standard IEEE Conference templates for Microsoft Word or LaTeX formats found at: <https://www.ieee.org/conferences/publishing/templates.html>.

Regardless of the source of your Poster formatting, you must submit your Poster in the PDF format. The Poster must be printed clearly and legibly, including all the figures, on standard black-and-white printers. Reviewers are not required to read your submission in color.

Important Dates:

Poster Submission Deadline: 11 December 2023 (anywhere on Earth)

Notification of Acceptance: 22 January 2024 (anywhere on Earth)

Camera-ready Version: 25 March 2024 (anywhere on Earth)
